

# 1-192 Rod Guide

adjustable height for round rods, PA / stainless steel AIS 316

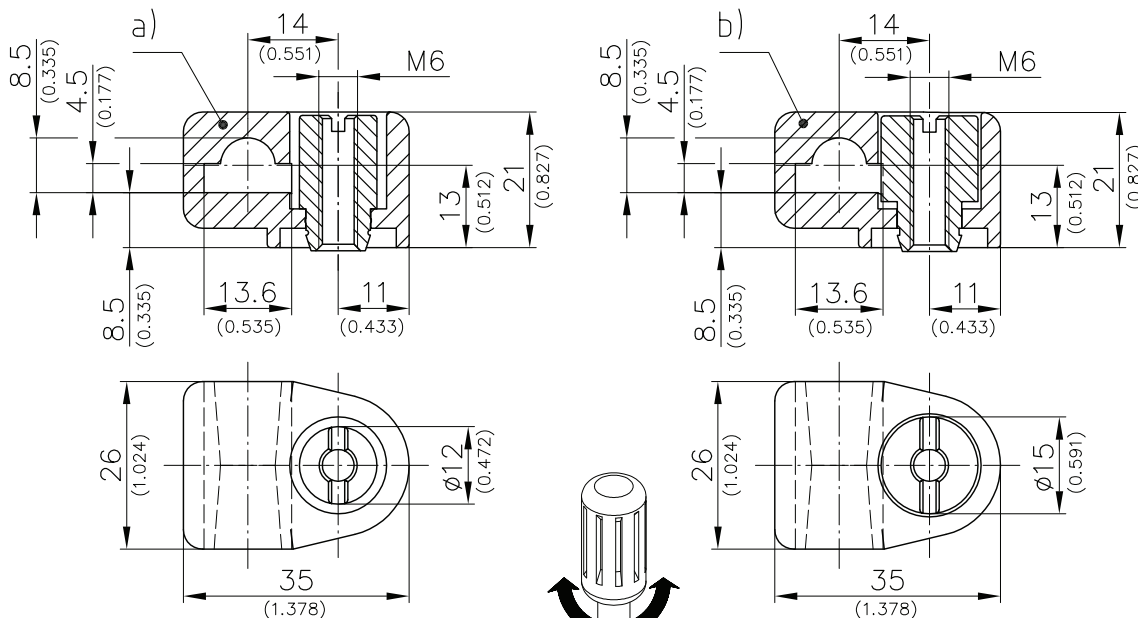

## Product Notes:

- Height is adjusted with a slotted insert to compensate for production tolerances or for sealing. Adjustment dependent on stud length:  
M6x14 +5/-1mm  
M6x16 +5/-3mm  
M6x18 +5/-5mm  
M6x20 +5/-7mm
- Use screwdriver with maximum blade size of 12x2mm
- Rods can be installed on guide before attaching to welded stud. The threaded sleeve of the rod guide is screwed onto the thread of the welded stud after the guide is placed on the stud.
- Uses 8mm round rods.
- Screwed onto a 6mm weld stud or M6 countersunk screw.
- The round shape of the hole allows free rotation even with short rods.

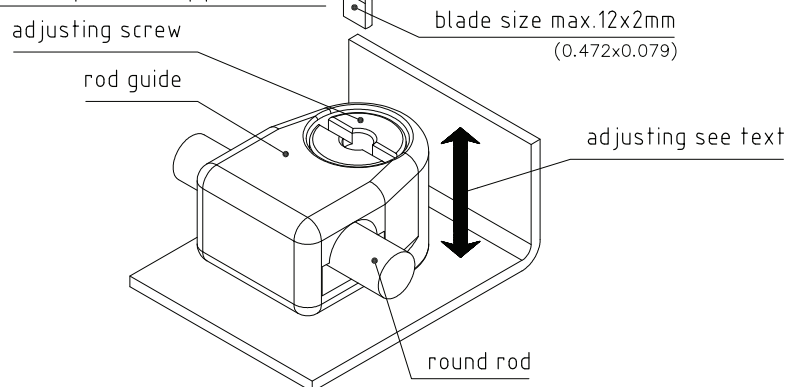

- Tool-less installation - see Product System 1-193SL
- Other PA adapter - see Product System 1-190

## Material:

- **Rod Guide:** PA, black or Stainless Steel AISI 316
